

ACC Donation Policy

The Ames Contractor Council (ACC) is dedicated to supporting the vision of NASA and the mission of Ames Research Center. The ACC supports philanthropic giving when the request supports either the stated NASA vision to “advance U.S. scientific, security, and economic interests through a robust space exploration program” or the Ames Research Center mission statement that “enables exploration through selected development, innovative technologies, and interdisciplinary scientific discovery.” Additionally, the ACC supports the general NASA goal of nurturing the future workforce.

This document outlines the ACC policy on awarding donations:

- 1) The ACC accepts requests for grants on an ongoing basis each calendar year.
- 2) The total amount of a grant can be no larger than \$2,000.00.
- 3) The “ACC Grant Application” form, located on the ACC webpage (www.amescontractorcouncil.org), must be completed and sent to either the President or Vice President of the ACC for consideration. In some instances (determined by the President and Vice President), applicants may be asked to present their request orally to the ACC membership.
- 4) All grant applicants must state how their request supports NASA’s vision, Ames mission, or the future scientific workforce.
- 5) Provided adequate funds are available in the ACC treasury, grants receiving at least a two-thirds majority vote from the ACC membership will be supported.
- 6) An identical grant request will be supported a maximum of two consecutive calendar years by the ACC.
- 7) Grant recipients must provide a report to the ACC membership six months after initial receipt of funding. The report may be in the form of a five-minute (maximum) oral presentation at an ACC meeting or a one-page written document submitted to the President or Vice President of the ACC. Grant recipients must respond to further report requests if such requests are made by the ACC.
- 8) Funds must be returned to the ACC if not used within a 12-month period.

The Ames Contractor Council (ACC) is a non-profit (501)(c)(4) organization whose membership consists of representatives from the contractor companies performing work at NASA Ames Research Center, Moffett Field, California. The ACC strives to apply its collective pool of management talent to benefit the Ames community.
