Moffett Field, CA 94035-1000

Dear Steve,

On behalf of the National Coalition of 100 Black Women, Inc., Silicon Valley Chapter I would sincerely like to thank the Ames Contractor Council for their support of the Pathfinder: Science, Math and Technology program. Thanks to Ames' generous support, young girls from the Bay Area participated in fourth grade science camp held at Camp MayMac on June 4, 2011 and will have the opportunity to participate in other activities throughout the year. These initiatives expose young girls to the many available opportunities in the areas of science and technology.

This program would not have been a success without the generous support you have provided us throughout. We deeply appreciate the willingness with which you have and continue to support our efforts to help girls develop an appreciation for math, science and technology and to encourage them to prepare for careers in these fields. We sincerely hope that this association will be maintained and that you will continue to support us in our future endeavors.

Thank you once again.

Warmest regards,

Sheila Johnson-Heacock
President
